

Dear Applicant,

Two new positions are available at Pylogen. We specialize in Software-, Web Development and Corporate Branding and we are looking for motivated, creative and innovative persons to join the team.

Full-Time Junior CSS & .NET Developers

The applicant needs to have basic knowledge in System Analysis, good knowledge of HTML and CSS Styling and good knowledge in C#. Additional experience of PHP and Macromedia Flash will be to your benefit, but not necessary.

Description: Junior Software Developer

Duties include:

- Supporting role in System Analysis documentation
- Website Templates & Styling
- C# Development (Web & Software)

Training will include:

- Training in system analysis techniques
- Advanced C# Training
- Flash Data Integration Training

Project Sizes that you will work on: R 3 500 – R 30 000

Salary: +/- R 5 000 per month, dependant on experience

Full-Time Senior .NET Developer

The applicant needs to have advanced knowledge and experience in System Analysis and C# (ASP.NET) development. Additional experience in PHP, JavaScript and Macromedia Flash will be to your benefit.

Description: Senior Software Developer

Duties include:

- Advance System Analysis
- Advance C# Development (Web & Software)
- Java Scripting

Project Sizes that you will work on: R 15 000 – R 300 000

Salary: +/- R 8 000 + Benefits, dependant on experience

All applicants need to be capable of working in a relaxed environment where he/she is responsible for completing their own work within the allocated time. A probation period of 3 months is compulsory where real-world application training will be done, after which the contract is revised and full-employment is considered.
